

STENCED PENCILS

BACKYARDS AND GARDENS OF PORTUGAL SET OF 6 PENCILS

When visitors comes to Viarco invariably associates the smell of cedar wood used in the production of the pencil as "an intimate scent of childhood". This association olfactory / affective pencil is connected to the base of this whole project, with which it intends to create a small portrait of the olfactory of the Backyards and Gardens of Portugal.

In partnership with i-SENSYS - perfume design, created the collection The Backyards and Gardens of Portugal with scents of **Orange Flower, Lily of Valley, Jasmine, Peony and Fig.**

A small tribute to our grandparents homes.
