

# OLDSCHOOL PACKS

**PRESERVING THE CLASSICS** COLOURED PENCILS

The first re-edition project was carried forward in 2006 with this set. This is a faithful representation of the production between the years 1950 and 1975 that is reborn in a partnership with "A Vida Portuguesa". Each package of pencils shows a representative image of activities practiced by the younger ones of that period.

These re-editions also contain an information sheet about the history of the brand, in Portuguese and English languages.

Packs of 12 coloured pencils of 9cm.
