

MULTIPLICATION TABLE

PRESERVING THE CLASSICS GRAPHITE HB=2

This object is possibly known by everyone as a childhood symbol. There are several versions of it, accordingly to the manufacturer's nationality. And this one is ours, the Portuguese version. Curiously, it continues to be produced with the original machine.

The multiplication table pencil is a tool that helps the process of memorization, it is an important device to learn how to do mental calculations.

HB2 pencil.

The set includes the exhibitor/holder.
